

Assumption Secondary School

Respectful Communication Protocol

Assumption Secondary School Respectful Communication Protocol

The richness of our school lies in each member of our school community. We strive to develop positive relationships and work in partnership with parents / guardians to develop the full potential of each student in our school.

Communication, either by phone or in person between staff and parents/guardians is essential in the day-to-day running of our school and will be conducted in a mutually respectful manner.

Staff provide a nurturing environment in which students can be educated.

They also have the right to feel safe in their workplace.

Should a member of staff experience abuse during a phone call or a meeting, they will end the conversation.

Should the abuse be of significant concern, the school and the individual member of staff reserve the right to make a complaint to an Garda Síochána.

Please respect all members of staff and treat them in a manner that every parent / guardian would expect to be treated.

This policy was ratified by the Board of Management of Assumption Secondary School on the 15th May 2024.
